| Siemens AG       | Germany | Siemens AG is a leading German engineering...  |

| Downstream Buyers | Country | Relevance                                      |
|-------------------|---------|------------------------------------------------|
| Nissan            | Japan   | Automotive OEM likely to use Ziehl-Abegg el... |
| Renault           | France  | Automotive OEM customer for vehicle compone... |

### Monetization Paths

- OEM supply of electric motors, fans, and control systems to automotive manufacturers
- Aftermarket distribution through global automotive parts distributors and service networks
- Direct sales via authorized dealers and brokers
- Licensing of proprietary energy-efficient motor and control technologies
- Provision of maintenance, repair, and refurbishment services for installed products

### Redeployment Paths

- Refurbishment and resale of used electric motors and fans for industrial applications
- Repurposing of ventilation and drive technology components for HVAC and industrial machinery
- Integration of energy-efficient motors into adjacent markets such as building automation and renewable energy systems
- Secondary market sales through specialized brokers and marketplaces for mechanical engineering components

## Stakeholder Map

Target-company decision-makers first, then external buyer and partner contacts.
